Basel, 26 March 2020

Liste Art Fair Basel is postponed to 14 - 20 September 2020 and will be held at the same time as Art Basel.

During these uncertain times, our greatest concern as an international fair for new discoveries in contemporary art is to protect everyone's health and at the same time to give our galleries and their artists, our guests, partners and team, the tenants of the Werkraum Warteck pp, and all other parties involved in the fair as much security in their planning processes as possible.

For these reasons, and in light of measures adopted worldwide to control the spread of the coronavirus, we have decided to postpone Liste Art Fair Basel to 14 - 20 September 2020. This means that the 25th edition of Liste Art Fair Basel will take place at the same time as Art Basel, which also announced its postponement today. The opening of Liste Art Fair Basel will now be held on Monday, 14 September 2020.

Liste Art Fair Basel is distinguished by its international character. This year, 77 galleries are planning to come to Basel from 37 countries to present their artists to visitors from around the world. Postponing the fair enables Liste to uphold its high standards of bringing together the world's most exceptional galleries from a younger generation, of giving galleries located beyond art metropolises an international platform, and of having galleries present their programmes abroad for the first time.

We wish you good health and look forward to welcoming you in September.

Warm regards,

Joanna Kamm
Director
